Type 1T.T1.8.230.2000

Mounting in 2 module or 65 mm round wall boxes

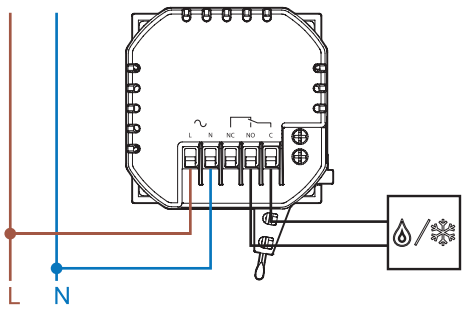

Mounting in 3 module wall boxes

Wiring diagram

External terminals: NTC sensor and dry contact

- If the **external terminals are not used** the thermostat will refer to its internal temperature sensor.
- If there is an external 10 kΩ **NTC sensor**, the thermostat will take that as the reference for the temperature.
- If there is a **dry contact** closed on the terminals, it will set the thermostat to night mode, lowering the temperature until the contact opens.
